

Tender Brief- Fresh Gym

Solar PV installation

Fresh Gym are looking to commission the installation of Solar PV on their roof. The array size will need to match their current annual electric consumption of around 30,000kWh per year and account for an additional 2 EV charging points (up to 22kW) that are to be installed.

The expected timetable is to have the works done by late August 2022.

Overview

Fresh Gym is a health club including a gym, studios and therapy rooms. We provide fitness facilities for the local community.

Location: Unit G2, Fairwater Drive, Shepperton, TW17 8AB

Project Details

It would be great if the solar installer can also offer the installation of EV charging points.

We would like to see the following items in your proposal:

- Cost breakdown of material and labour (ideally individual material costs visible)
- Make, model and warranties of solar panels, inverters and installation
- Make, model and warranties of EV charging points
- Estimated time scale to carry out the installation
- It is a plus if the installer holds MCS certification and RECC membership.
- Expected lead time for the installation
- The proposals can be done as desktop surveys. The successful bidder is expected to carry out a site visit to confirm the costs.

Proposal return deadline: 9th June 2022

Award Criteria and Procurement Process

Proposals submitted will be assessed by Fresh Gym against the following criteria:

- Are the items listed above included in the quote?
- Quality of the products
- Length of warranties on materials and workmanship
- Installers qualifications, certifications and reputation
- Value-for-money
- Installers location
- Lead times

Fresh Gym will notify bidders of our procurement decision in June 2022.

We will let bidders know whether or not they have been successful by email.

Please send your proposal via email to Gary Kemish by 9th June 2022.
